

The American Society of Mechanical Engineers
Founded 1880

This Certificate is Awarded to

Nicholas Fry

For Successful Completion of
Hydraulic Design of Liquid or Water Piping Systems Online Self-Study Course

Date Completed: **6/28/2022**

10.0 Professional Development Hours

Thomas Costabile P.E.
Executive Director

By issuing this certificate, ASME does not "approve," "certify," "rate," or "endorse" any activity, imply licensure, registration or government authorization to practice any specific job function or activity or make any determination of an individual's capabilities in applying this general knowledge within a specific work environment or under actual working conditions.

Arin Ceglia, Managing Director
Learning & Development

ASME does not make any determination of an individual's capabilities in applying this general knowledge within a specific work environment or under actual working conditions. Individuals shall not make any representations to the contrary. It remains the sole responsibility of the employer of any individual to determine competency for assigned tasks and work.

ASME Learning & Development is accredited by the International Association for Continuing Education and Training (IACET) and is authorized to issue the IACET CEU.
As an IACET Accredited Provider, ASME Learning & Development offers CEUS for its programs that qualify under the ANSI/IACET Standard.
